

GQR

Strong Support for Designating the
Grand Canyon a National Monument

GRAND CANYON
TRUST

Methodology

GQR conducted a phone survey among 600 likely voters in Arizona from June 21 to June 27, 2022. Respondents were contacted through the voter file.

- 500 AZ likely voters
- 100 AZ Hispanic likely voters

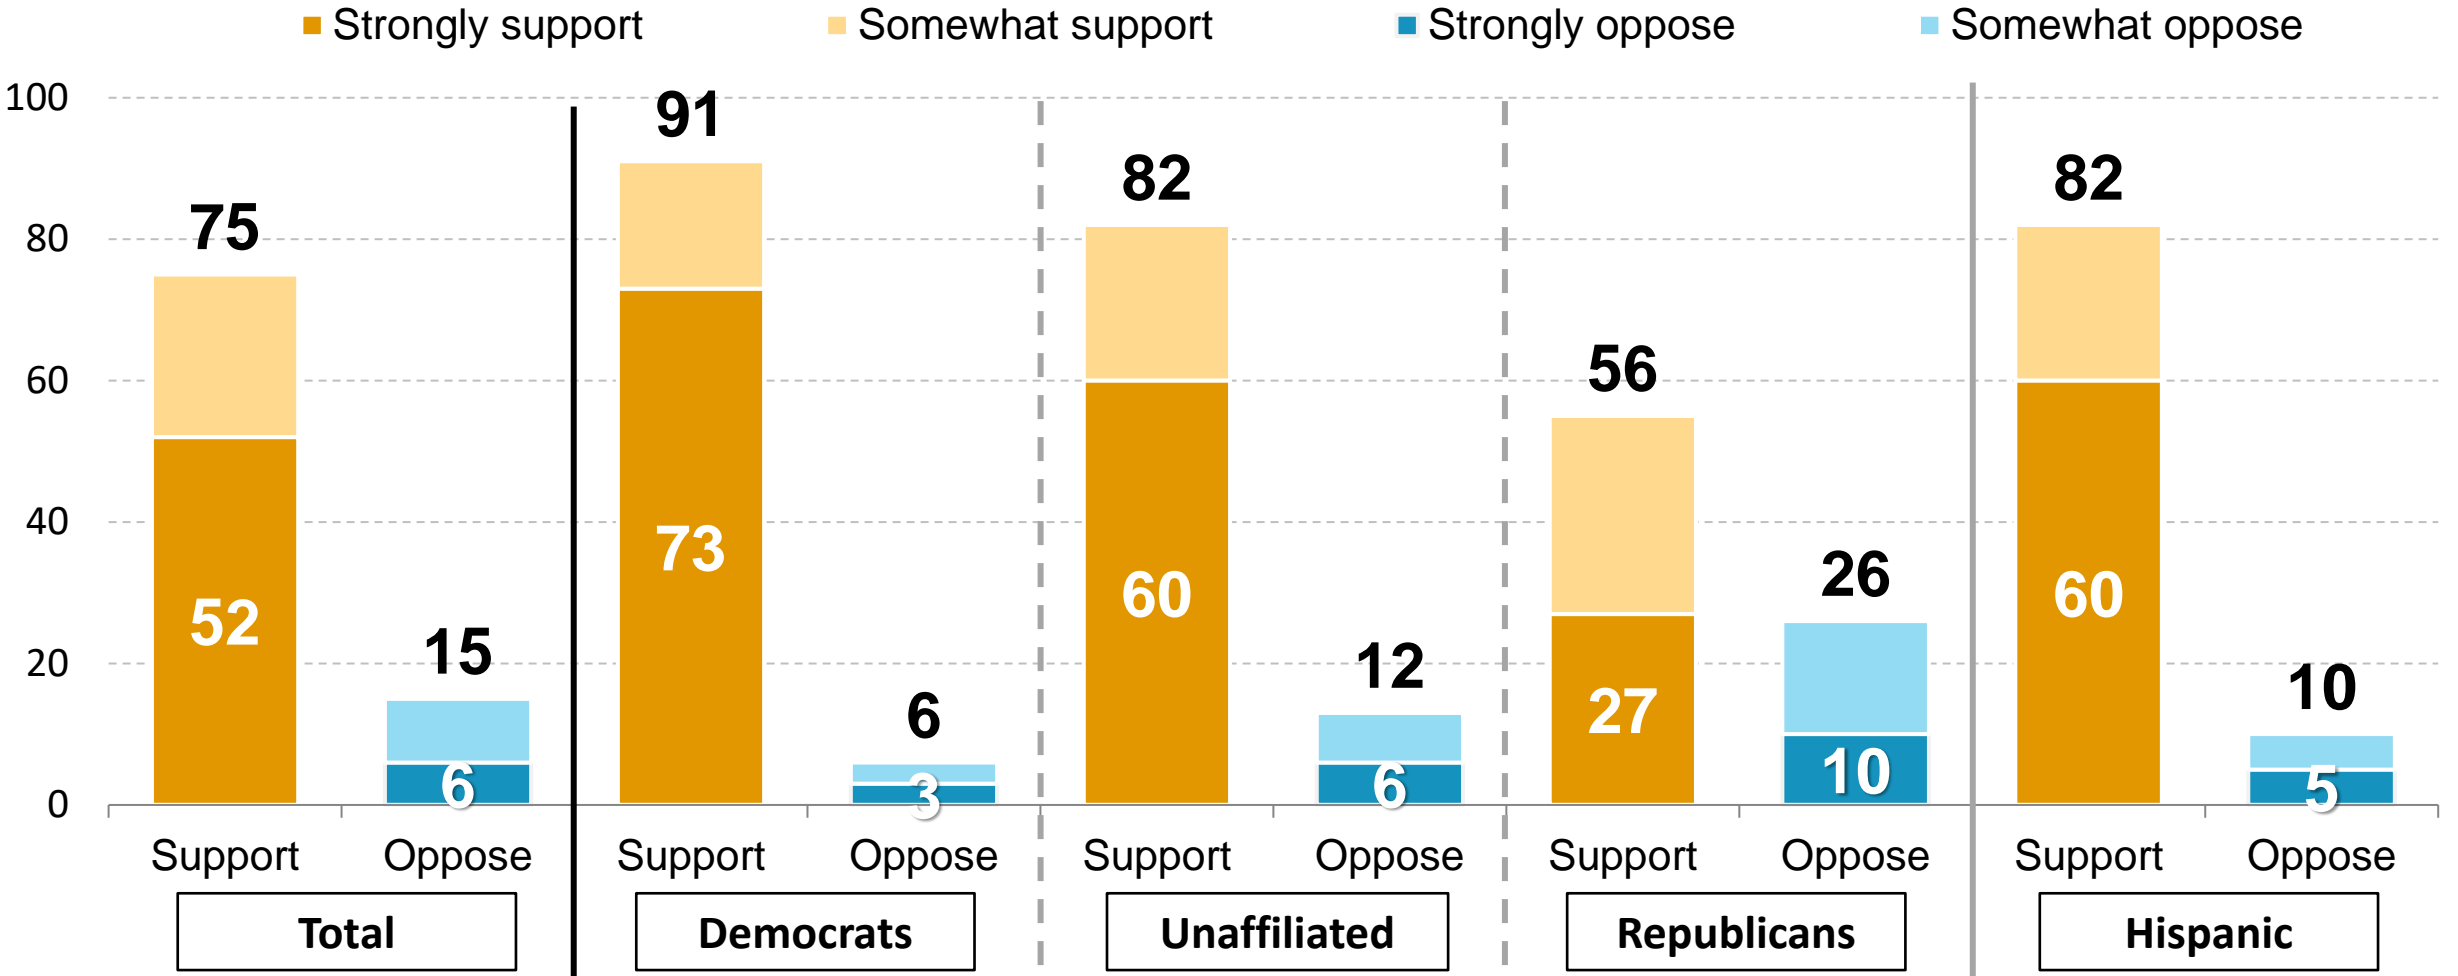

Among all interviews, 44% were conducted by landline, 56% by cell

The data is subject to a margin of error of +/-4.0 percentage points at the 95 percent confidence interval; the margin of error is higher among subgroups. The data are statistically weighted to ensure the sample's regional, age, and gender composition reflects that of the estimated likely voters in Arizona.

In this report, we also reference data from a survey by Colorado College and a bi-partisan research team of New Bridge Strategy (R) and Fairbank, Maslin, Maullin, Metz & Associates (D); January 5-22,2023; English/Spanish offered; phone/online; 8-state poll including n=504 in Arizona

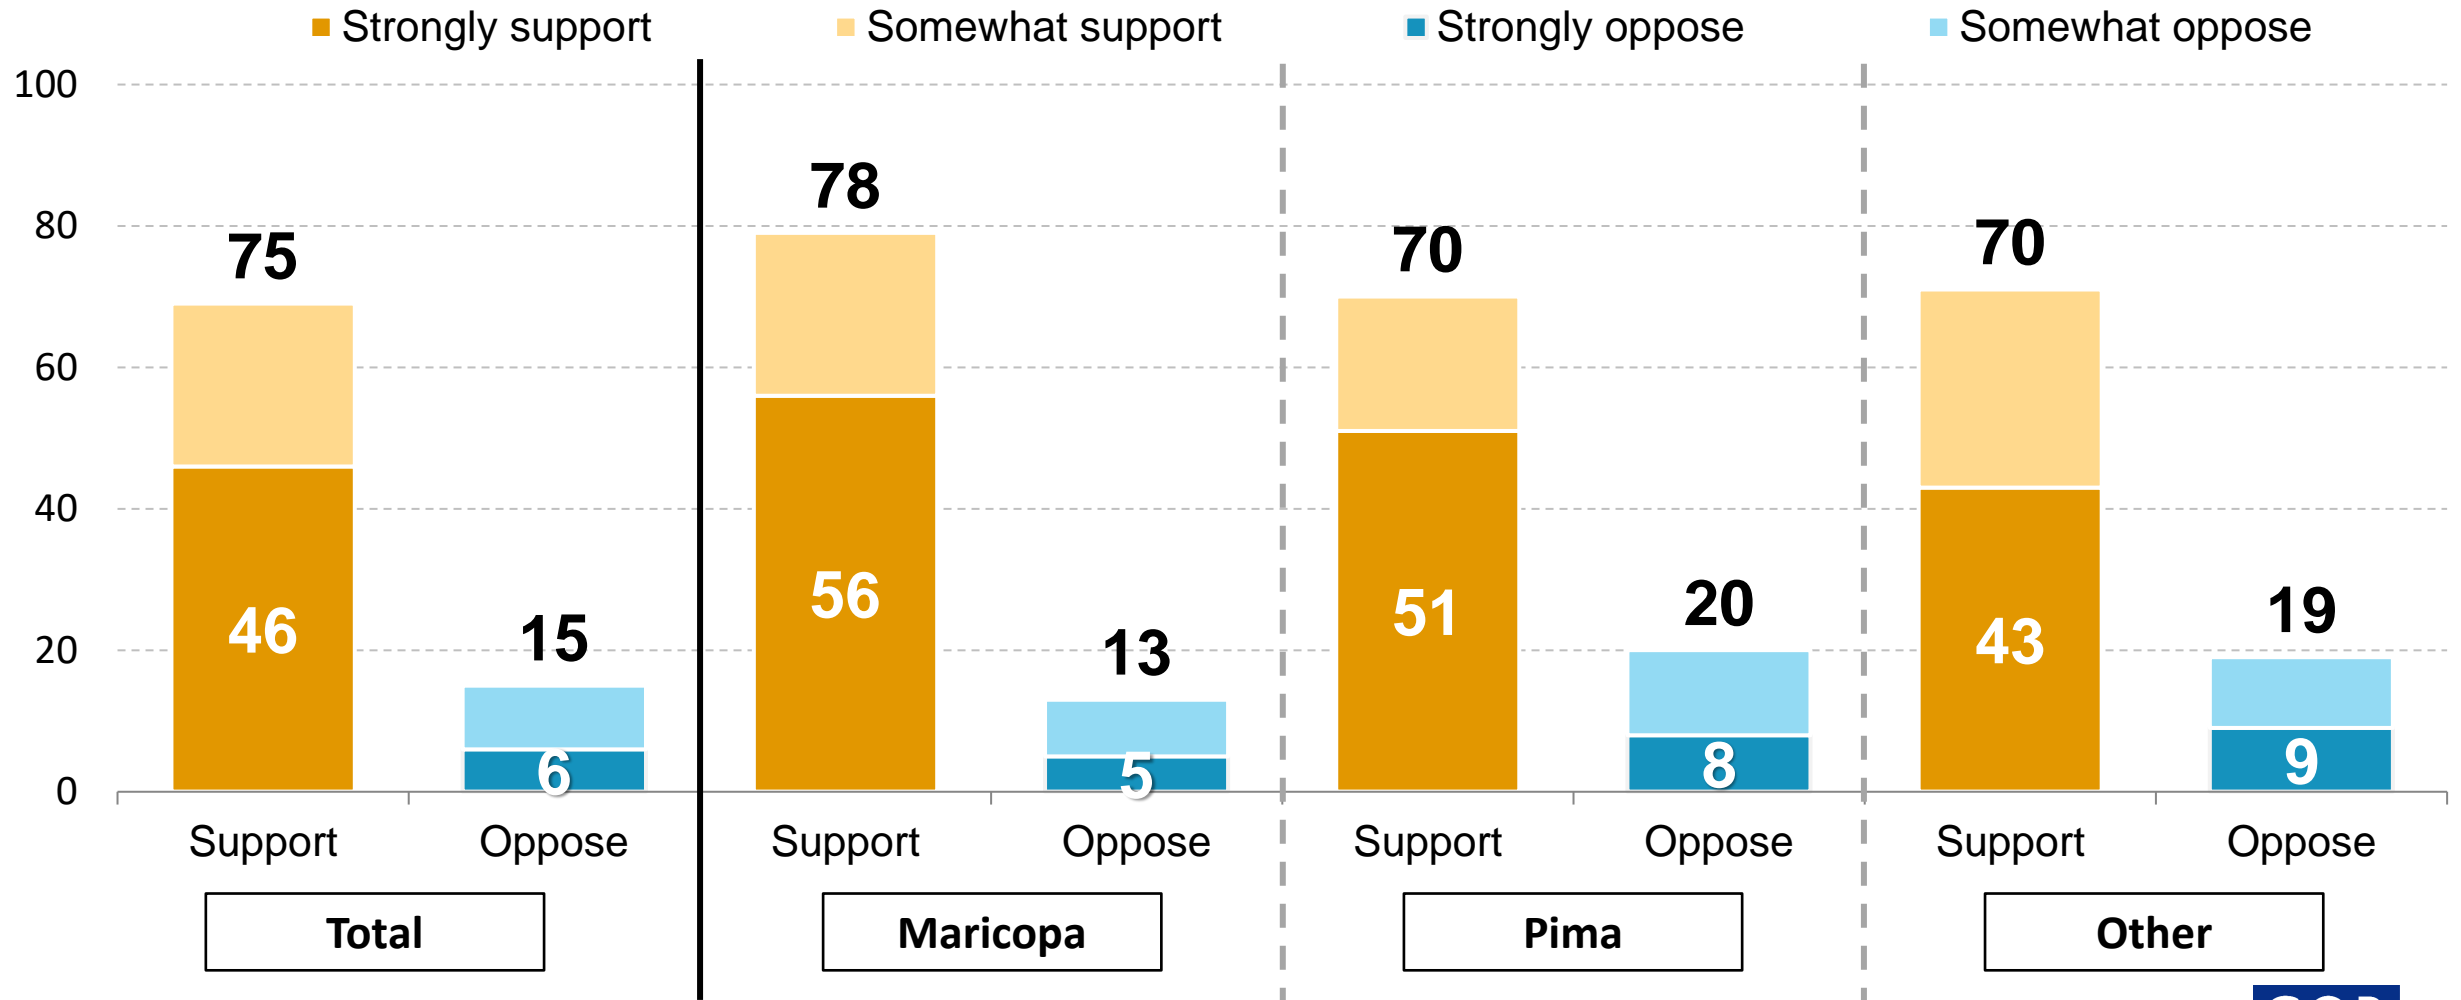

Strong bipartisan support for making GC a national monument

Do you support or oppose designating existing public lands immediately outside the Grand Canyon as a national monument, which would protect clean water supplies and Native American sites, while not allowing energy development or mining on these lands?

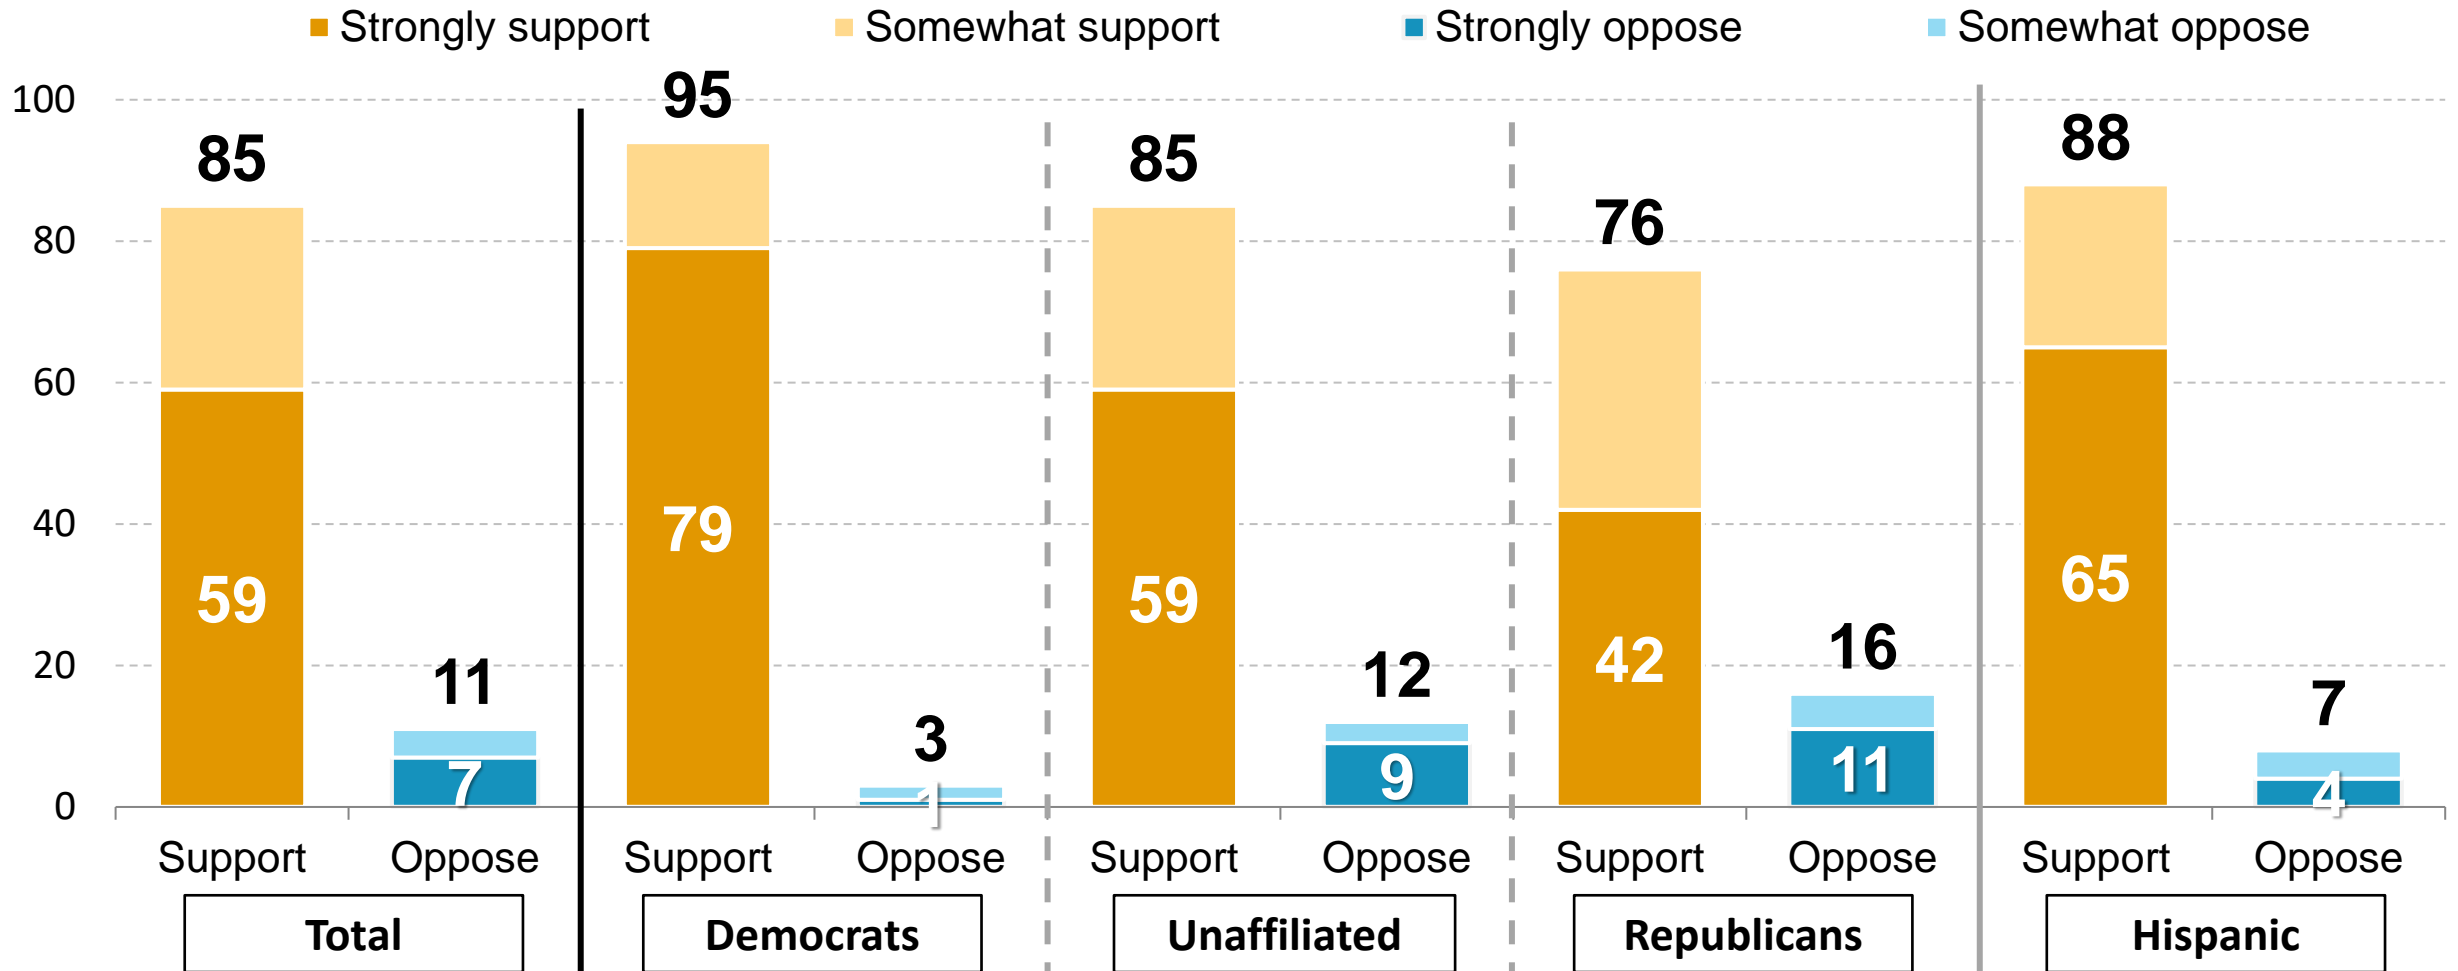

Proximity to Grand Canyon not a factor

Do you support or oppose designating existing public lands immediately outside the Grand Canyon as a national monument, which would protect clean water supplies and Native American sites, while not allowing energy development or mining on these lands?

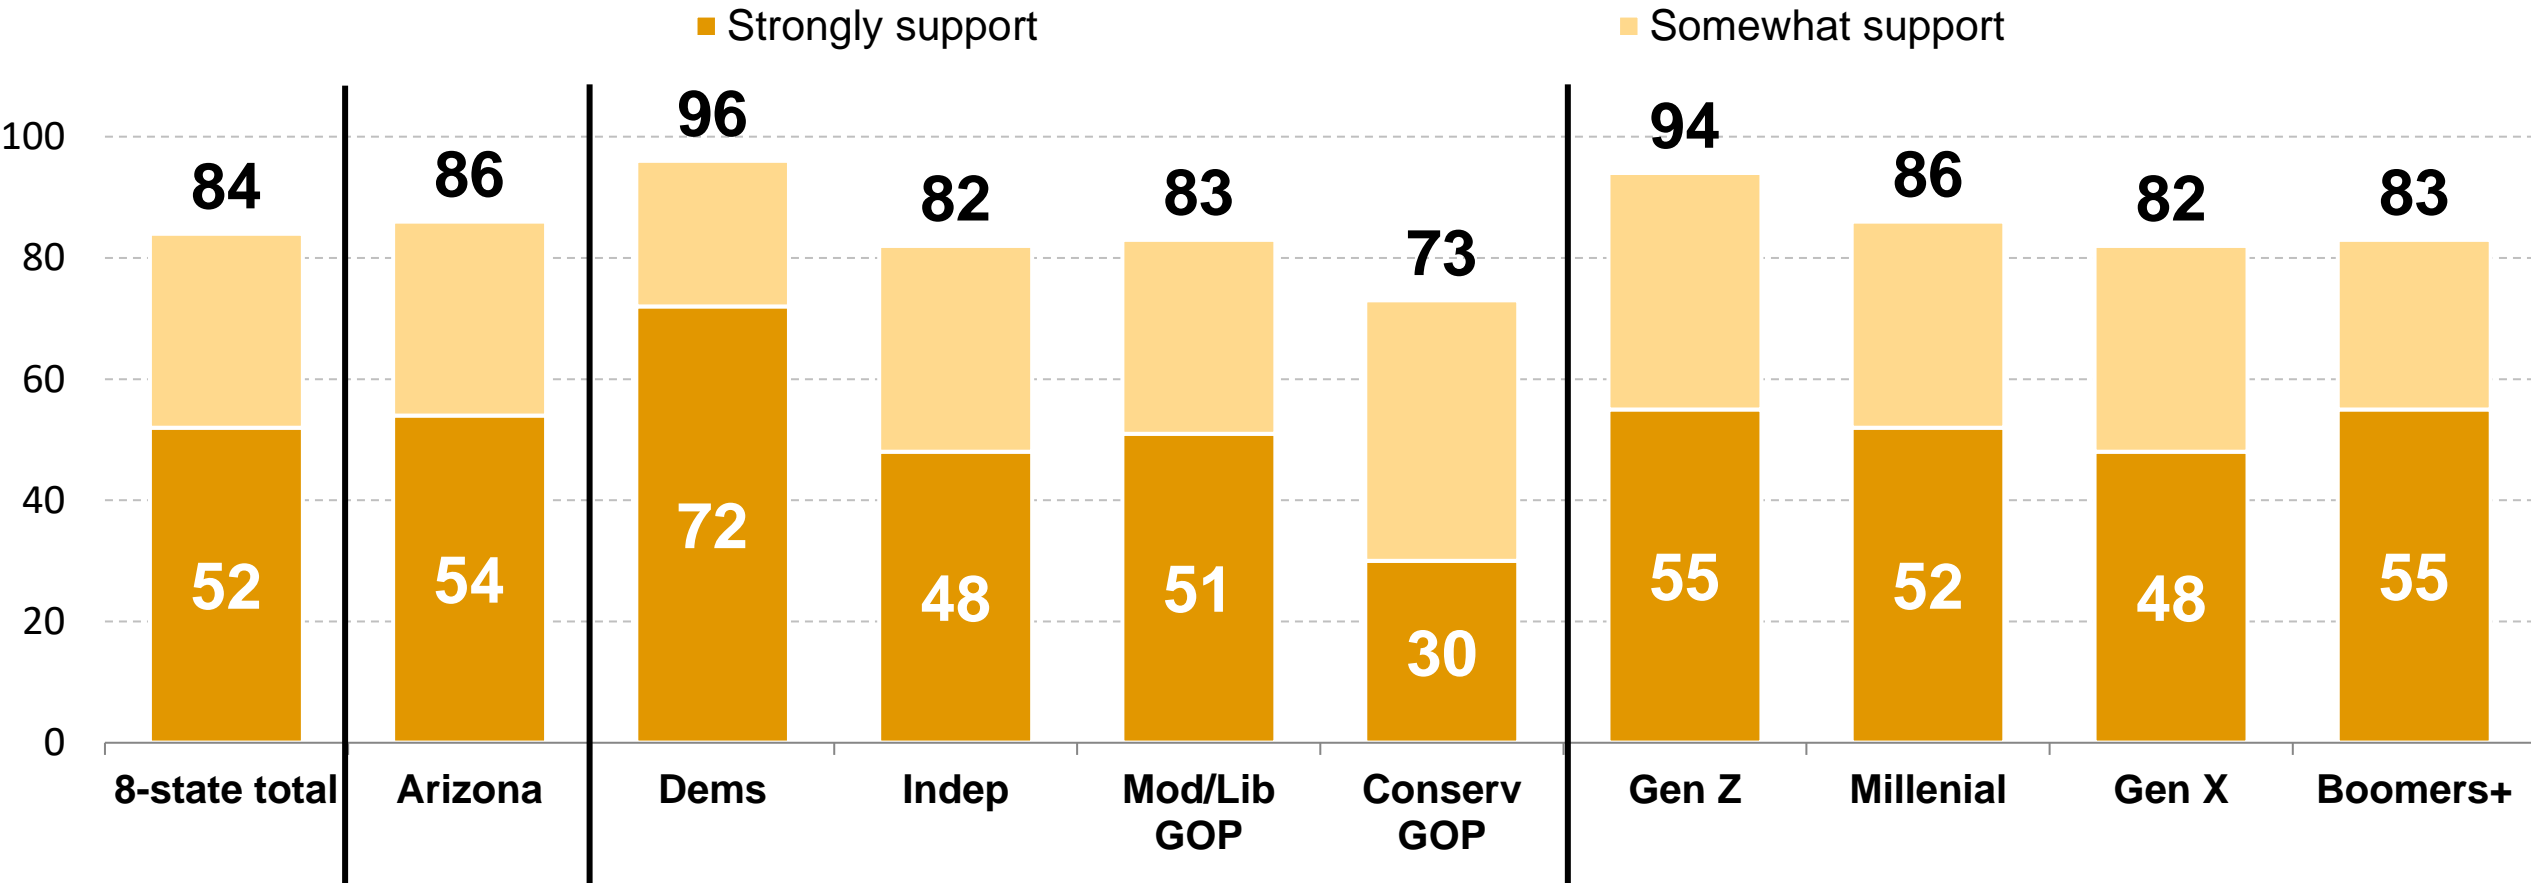

Even more feel presidents should have ability to protect lands

As you may know, presidents of both parties have used the ability to protect existing public lands as national monuments in order to maintain public access and protect the land and wildlife for future generations. Do you support or oppose presidents continuing to have the ability to protect existing public lands as national monuments?

Support extends across partisanship and generation

Do you support or oppose Presidents continuing to use their ability to protect existing public lands as national monuments?

Data from State of the Rockies Project.

Bi-partisan research team of New Bridge Strategy (R) and Fairbank, Maslin, Maullin, Metz & Associates (D); Jan 5-22, 2023 in English/Spanish, phone/online, demographic data is 8-state total
